How to Gather Info Needed For A Free And Accurate Phone Quote !

Water Heater Identification Guide

Welcome,

HotWaterExpress.com, Inc. can provide an Accurate Phone Quote to replace your water heater. With over 35 years in Water Heater repairs and installations, we've devised an Accurate Speedy System to provide our customers with a **No Surprise Phone Estimate.**

Just provide the requested information shown in the three easy steps of this guide. If your home or business's Hot Water Heating demand has changed, please also indicate that change for us to provide the replacement suitable to your needs.

Once completed, sendyourwater heaters information to:
Text: (240-375-8244)

Email: Info@HotWaterExpress.com and receive your accurate quote for the replacement.

EASY AS 1, 2, 3

PHOTO ONE

Take an overall picture of your water heater showing the space on both sides of the water heater and also showing as much area above it.

Note: all in one picture as shown in (fig 1)

Fig 1

PHOTO TWO

Locate and take a clear, close up picture of the information sticker displaying your units model number, serial number, gallon capacity, bTu rating and other information for your water heater. This is typically located anywhere from just above the temperature control near the bottom area of the water heater to near the top area of the water heater as shown in fig 2.

Close up

Fig 3

Second example of a water heater's info.

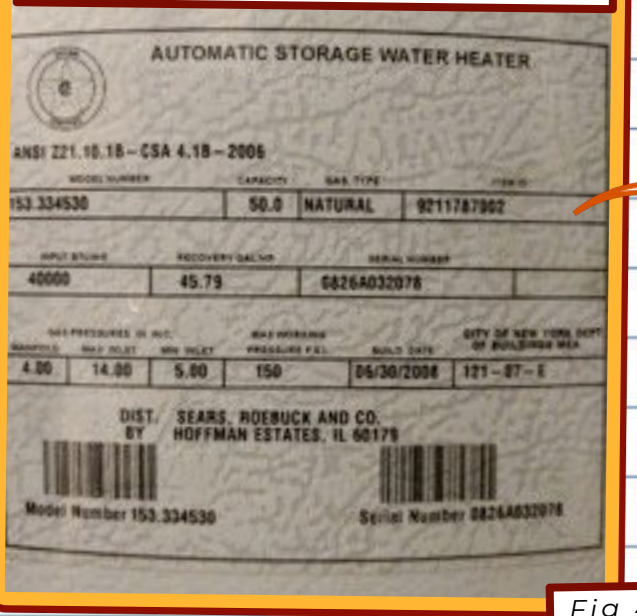

Fig 4

Another Example from a *different water heater (fig 4).*

Note: this information is on a clear label only.

PHOTO THREE

Gas Water Heaters Only.

Take a picture of exhaust vent. Please follow the larger pipe (which vents the heaters gas) to the point where it connects to a larger pipe configuration. It may go through a wall (Fig 5) into the chimney (typically on older homes).

Please take the picture of where this pipe ends.

Through wall into chimney
